DETAILED ACTION

Election/Restrictions

Newly submitted claims 35-44 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

New claims 35-44 recite receiving a first set of values indicative of a first current ambient condition and a first desired ambient condition of the first area and a second set of values indicative of a second current ambient condition and a second desired ambient condition of the second area and initiating a transfer of heat between the first heat exchanger and the first area or between the first heat exchanger and the second area based on the determination and the first or second desired ambient conditions. This presents newly claimed subject matter different than was previously examined, and requiring a new search distinct from the subject matter recited in previous claims 1-25 or currently pending claims 26-34.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 35-44 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

Claims 26-34 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
